

# Stephen Weber

Full Stack Web & Mobile Developer

(714) 496-0860

me@stephenweber.io

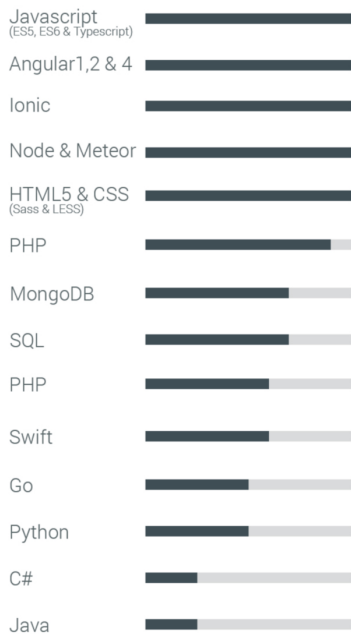

Developing for me is like cooking a meal. The projects I am proud of have a balance of usefulness, intuitiveness, and beauty that makes someone want to use it. This is the only art form I know of where I can use logic to create.

## Personal

**Name** Stephen Weber

**Birthday** 25th April 1984 (32)

## Technology Proficiencies

## Other Proficiencies

Unity, Unreal Engine, Flash, After Effects, Sketch, Analytics and Photoshop.

## Hobbies

Outdoors

Travelling

Exercise

## Work

### Lead Developer @ Experian B.I.S. R&D

2017 - Present

Developed over 30 different prototypes each year to solve various customer problems (internal and external). I iterated on these products with various customers in different roles to achieve amazing results.

Introduced Google Venture inspired design sprints to find what customers and product owners really wanted to build and gave the team a clear direction to move towards.

### Founder @ Weber LLC

2006 - Present

Developed a hybrid mobile app helps parent's know what their baby will want next by enabling parents to easily track all the important things for their baby and then uses simple predictive AI to know what the baby will want next. Now it helps hundreds of parents and is successfully generating revenue.

Developed over 30 of rich interactive websites, HTML5 games and applications for Dr. Seuss, Goosebumps, PBS Kids and many more amazing brands and assisted in design and art direction.

### Lead Developer @ Advantage, Mov-ology, Soap, Cinovus

2015

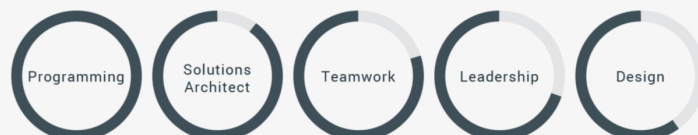

Developed and lead the team for Advantage and its other companies (Mov-ology, Soap, and Cinovus) while inventing patent technologies to Mov-ology to stay competitive.

### Director of Motion Graphics @ Ignite Health

2011

Lead a team that accomplished over \$15 million for Fortune 100 clients and started an innovation team that took the company to the next competitive level.

## Professional Skills
